DOCTORS MAKING GENEROUS FREE OFFER TO AILING

Remarkable Free Offer
Made to All the Sick and
Ailing Until April 28th.

INTER-STATE DOCTORS METHODS

Only Charge to Patients Cost of Medicines and Distribution; Offer Expires Soon.

Free consultation, free examination and all treatments free. Such is the generous offer made to the sick and ailing by the Inter-State Doctors at all new patients accepted for treatment at their Connellsville medical institute over the Citizens National Bank, corner of Pittsburg and Apple streets, before April 28. The only charge that will be made is for the cost of medicines used and their distribution. To very poor patients even medicines will be furnished free. The object of the Inter-State Doctors in making this grand free offer is to aid practically the sick in appreciation of the tremendous patronage that has been bestowed on the Inter-State Doctors ever since the establishment of their institute here. This offer will no doubt be doubly appreciated by the sick who have found hardship due to the labor conditions in the recent past and present. This offer will give them expert medical service which they could not otherwise obtain except at high prices.

The wonderful power of the new system of medicine as practiced by the Inter-State Doctors here at their Connellsville institute is now so well known by the hundreds of sick who have been treated there, and their friends and the general public that it needs little comment. Many hundreds of Maryland, West Virginia, and Pennsylvania have testified publicly to the merits of the Inter-State Doctors' new scientific treatment. These expert medical specialists select chronic and difficult cases in order to constantly prove what can be done with the new treatment even in the worst forms of disease without the use of the knife—without the use of surgery.

The treatment used by the Inter-State Doctors is non-surgical. They never use the knife—never mutilate the body. Only the best and purest of drugs and chemicals are used by these specialists, one of their mottoes being that every sick person is entitled to the best of medicines that are to be found in nature regardless of cost. These medicines are furnished patients at the institute directly from the Inter-State Doctors' own laboratories, thus eliminating the enormous number of patients treated make it possible for the Inter-State Doctors to place the price of treatment within the reach of every one.

Consultation and examination free to all, but only curable cases will be accepted for treatment. If your case is incurable you will be told so and not one penny of your money accepted.

The Inter-State Doctors' Connellsville institute is over the Citizens National Bank. No charge will be made in the regular office hours during this special offer, and those hours are from 9 A. M. to 12 noon, 2 to 5 P. M., and evenings from 7 to 9 o'clock, daily. Sunday hours are from 9 A. M. to 12 noon only.

The Inter-State Doctors treat numerous other diseases and ailments, chronic diseases of the nerves, blood, heart, liver, kidneys, bladder, skin, brain, spine, also rheumatism, paralysis, epilepsy, goitre, gall stones, ruptures, asthma, catarrh, deafness, weak lungs, neural troubles, chronic appendicitis, dropsy, neuritis, vaginitis and other diseases of women and of men. Sick and ailing people can do no better than to take advantage of this wonderful offer made until April 28 to all sick and ailing who consult the Inter-State Doctors before the above date. Owing to the large number of additional patients that will be seen at the institute during the next 15 days those who can do so are advised to call at the institute during the morning office hours—Adv.

HOW TO CURE STOMACH TROUBLE

Excessive acid in the stomach, or hyperacidity, as it is called, is primarily responsible for nearly all cases of indigestion, dyspepsia, gastritis, and flatulence, and quite frequently leads to stomach ulcers. The successful treatment for prevention as well as cure of such cases depends entirely on neutralizing the excess acid, stopping the food fermentation, and healing the inflamed mucous membrane that lines the stomach. For this purpose specialists are now advising the use of pure bismuthated magnesia, obtainable at any drugist which has recently been found to be unequalled in the treatment of even the severest cases. A teaspoonful in a little water immediately after eating stops all pain almost instantly, neutralizes the acid, and soothes the inflamed stomach and if regularly used will quickly remove the cause of the trouble and effect complete relief.—Adv.

Standard Remedy For Many Homes

Indigestion and constipation are two conditions closely related and the cause of much physical suffering.

The tendency to indulge one's appetite is general, so that most people suffer at some time or another from rebellion of the overtaxed organs of digestion and elimination. A simple, pleasantly effective remedy that will quickly relieve the congestion of poisonous waste and restore regularity, is the combination of simple laxative herbs with peppin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. This is a mild, pleasant laxative- tonic and digestant, absolutely free from opiates or narcotic drugs and has been the standard household remedy in countless homes for many years.

A free trial bottle can be obtained by writing to Dr. W. H. Caldwell, 452 Washington St., Monticello, Ill.

She did not want to buy a dog, but the boy's persistence in the alternative he delivered a good dog and got a dollar for it. A day or so later his father came down the alley looking for a stray dog. "Why, come on and see my dog," the boy said, "and the neighbor lady, don't want you to think I was selling your dog."

"Darn his bottom, the boy's always selling something," remarked the father. The boy was a steady layer, too, which did not brighten the boy's mercurial reputation with his father.

The cast, as pictured, is made up of well known young people about the city who have devoted many hours of hard work and study during the past several weeks to preparing for Friday night's event and although many of them will be making their first appearance as thespians it is confident that their friends will witness a highly enjoyable performance.

The reserved seat sale opened at Hart's drug store this morning and at noon it already promised to be very large.

BETTER THAN CALOMEL
Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure, active, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after-effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums, so do strong liquids.

It is best not to take calomel, but to see Dr. Edwards' Olive Tablets take its place. Most headaches, "biliousness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets with you today and "heavy" notes how they clear the blood, drive liver and bowels "perky" and the spleen. At 10c and 25c per box. All druggists.

STATE CONVENTION FACES LONG TASK

Mending New York Constitution to Take All Summer.

ELIHU ROOT IS CHAIRMAN.

Citizens Expect to Gain Important Changes Along Progressive Lines, Especially in the Matter of Home Rule for the Government of Cities and Conservation.

The work of the seventh convention in New York state in 1915 years to revise the constitution of the state, which met at Albany April 6, will be in progress all summer. The new constitution must be completed by the middle of September, as the revised draft must be drawn up six weeks before the next November election, when it will be submitted to the people for approval.

After organizing, the convention adjourned until April 25.

Ex-Senator Elihu Root, who has held many important offices, among them that of secretary of war and secretary of state at Washington, and was an important factor in the last convention in 1901, was elected president of the convention, being the unanimous choice of what is considered a gathering of the greatest minds in the state.

There are 168 delegates, three from each of the fifty-one counties in the state and fifteen at large. Each is to receive \$1.50 for his work and mileage to and from his home office. The convention will cost the state about \$200,000.

Republicans in Control.

The Republicans have 145 delegates and the Democrats fifty-two.

Four of the delegates were delegates at the last convention, twenty-one years ago. They are Mr. Root, Dr. Linney Nevill, Charles S. Merces and Louis Marshall.

The nonpartisan spirit of the convention was shown when no floor leaders were chosen. In their stead were selected two vice-presidents, Jacob Gould Schurman, president of Cornell university, a Republican, and Morgan J. O'Brien, a Democrat.

It is expected that many important changes along progressive lines will be made in the constitution of the state as the result of the convention. Ex-Senator Root foreshadowed this in his speech. He said:

"Great changes have come in the industrial and social life of the state since the last convention. To attain ends which every one agrees ought to be attained it appears necessary that government shall interfere to a much greater extent than in former times with the complicated and interdependent life of the people. The business which government is required to undertake has vastly increased both in magnitude and variety, and there is a widespread feeling that in some respects the business of the government has outgrown the organization of government."

To Give Voter Power.

"Many thoughtful citizens consider that our system of taxation, appropriation and expenditure of money, which worked very well in simpler times, is now quite inadequate. Many think that the strictly municipal interests of our great cities require more protection in the way of home rule provisions than is afforded in the present constitution."

"Many think that the natural resources of the state, particularly the forests and water power, should be brought under a system of conservation and utilization having the stability of a constitutional basis. Many think that our ballot has become too complicated and unwieldy and that the real power of the voter over the affairs of government would be increased if there were fewer candidates to be voted for and fewer subjects for the voters to pass upon at the same time."

"Many think that the great multitude of separate officers and commissions which have been created from time to time to meet new demands for official action should be brought into more definite relations with each other and under more systematic supervision and control."

"These and other subjects have enlisted the interest of respectable bodies of citizens who are entitled to have

LEITER BLAMES FARMERS FOR RISE IN WHEAT

Tells Investigators They, Not Speculators, Cause Dear Bread.

Joseph Leiter, who tried to corner wheat eighteen years ago and failed because he underestimated the crop, told the New York state attorney general's investigating committee about the increase in the cost of bread. He defended the Chicago wheat pit, its operators and wheat speculators.

He declared that speculation had nothing to do with the rise in the price of wheat; that the present price is created by legitimate demand; that the elimination of speculation in foodstuffs would cause the farmers to get together and form a price fixing trust.

"If," he said, "you continue dealings to a cash grain transactions and stop dealing in futures the business would immediately become highly speculative. The miller would have to take his profits right away. Chambers would take the place of legitimate dealers and the chambers would exact a real toll of the consumer."

"The man who buys for a few points' rise or fall in wheat might just as well put his money into a safe bank. But you cannot stop legitimate speculation."

"What will the next change in the wheat market be? You'll see it jumping up and falling down because there is no speculation."

"The United States has controlled wheat prices since Sept. 1, 1911, and will continue to do so until the new crop comes. The high prices are due to the farmer, who is holding his wheat."

"There is nobody left in the speculative market. The speculators got out after wheat passed the \$1.10 mark. They were either squeezed or frightened out. The rise would have come sooner had it not been for the speculators."

Mr. Leiter denied that the owners of the great grain elevators are holding wheat in order to make a corner.

WOULD LET MEN EARN FARMS

Forward to Land League Asks Federal Co-operation.

A delegation representing the National Forward to the Land League of New York conferred with Secretary Wilson, Assistant Secretary Post and Secretary of Agriculture Houston in an effort to secure co-operation of the departments of commerce and agriculture in the movement.

The delegation was composed of Mrs. Haviland Lund, Dr. J. Moserole, C. C. Higgins and George H. Polhemus of New York. The secretaries were informed that the league believed a man who had no money should be given an opportunity to earn the first payment for a farm and that men with no knowledge of farming should be trained.

The delegation was advised to place before both departments in a formal manner the steps it desired them to take to co-operate in the movement.

A Recipe For Ghosts.

It is generally understood that "seeing ghosts" is the result of indigestion. The following notes may be useful to amateurs anxious to investigate psychological phenomena:

Tabster salad eaten after midnight, one ordinary ghost with chains.

Two Welsh rabbits and a mince pie, one mysterious lady emitting groups.

Cold roast pork, mixed pickles and strong tea taken immediately before retiring, a genuine family specter carrying his head under his arm.

A portion of cake, result of daughter's first lesson at cookery school, a group of ferocious blood stained hobgoblins with blue lights shining out of empty eye sockets.—New York Journal.

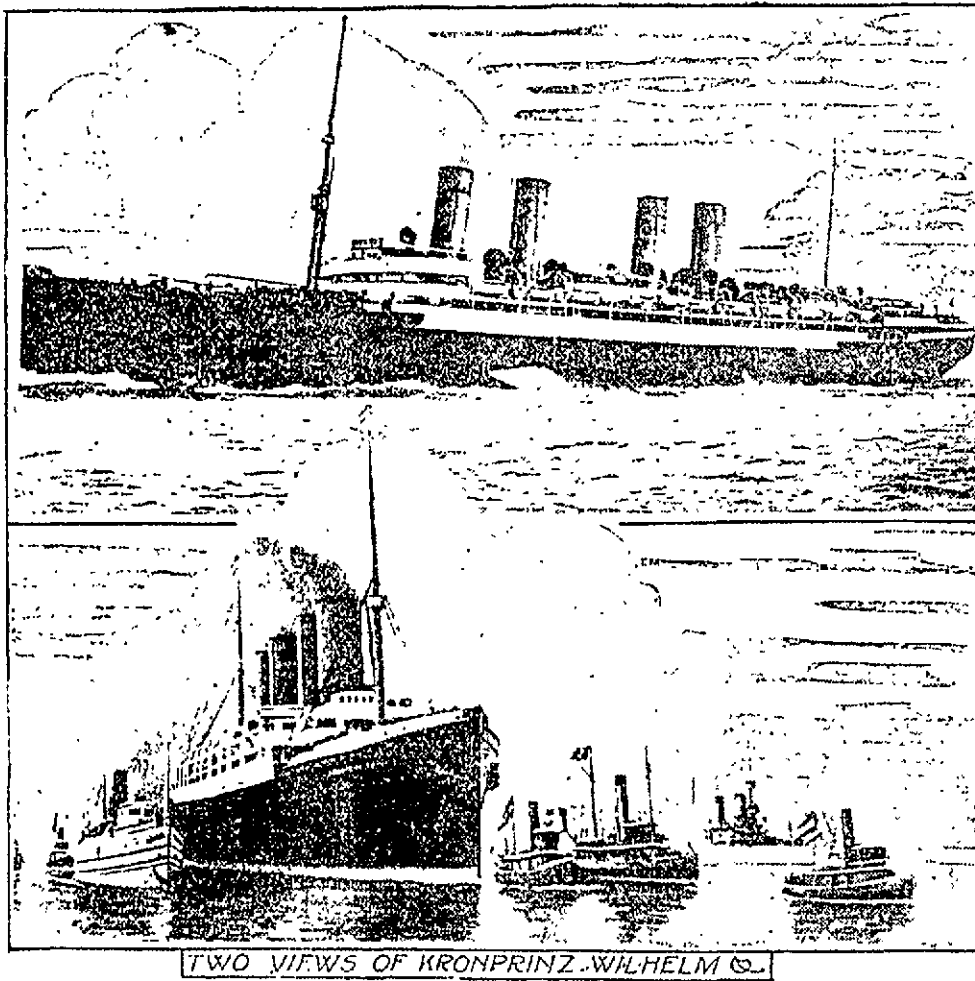

Cleaning a Watch Chain.

Gold or silver watch chains can be cleaned with a very excellent result, no matter whether they be matt or polished, by laying them for a few seconds in pure aqua ammonia. They should then be rinsed in alcohol and finally shaken in clean sawdust, free from sand. Imitation gold and plated chains should be cleaned in benzine, then rinsed in alcohol and afterward shaken in dry sawdust.—St. Louis Republic.

It is well to learn to work intensively.

SCHOOL FOR SERVANTS.

Kenosha, Wis., Tackles Domestic Problem in Novel Fashion.

Kenosha, Wis., as a municipality is making an effort to solve the servant girl problem. A school was opened for the education of servant girls, fifteen young women of various nationalities being entered as the first students, all employed in the homes of members of the Kenosha City club, which promoted the school. Classes are organized in breadmaking, table serving, housekeeping, bedmaking and other domestic arts. Two teachers are in charge of the work.

The expense of the school will be defrayed from the public school funds. Leading women patrons of the school will open an employment bureau in connection therewith and believe that the two working together will serve the purpose of solving the problem of procuring competent housemaids.

The first lecture given to the young women was on "The Dignity of Servicing."

Frederick's War on Coffee.

In a manifesto issued by Frederick the Great in 1770 the mighty monarch deplored "the increased consumption of coffee by my subjects and the amount of money that goes out of the country in consequence. Everybody is using coffee. This must no longer be. My subjects must drink beer. His majesty was brought up on beer, and so were his ancestors. Immense battles have been fought and won by soldiers nourished on beer, and the king does not believe that coffee drinking soldiers can be depended upon to endure hardships or to conquer his enemies should another war occur." Coffee drinking was made a government monopoly, and a prohibitive price was charged for the berry. "Coffee snufflers" were appointed all over Prussia to check illicit roasting. Coffee was therefore ousted from popular favor.

UNIFORMS AT 15 A MINUTE.

British Firm Sets Record of Speed in Clothing Soldiers.

Army uniforms are being turned out by the manufacturers of Leeds, England, at the rate of fifteen a minute, or 7,200 for a day of eight hours or 42,200 a week.

In a model factory the piece of khaki cloth, measuring from fifty-five yards to sixty-five yards in length and weighing from one to twenty-two ounces to the yard, enters the cutting room and after passing through only four other departments is presented to the government as pressed and completed uniforms. They are made in eighteen sizes.

Never in all its history has Leeds turned out so many boots as in the past few months. War office inspectors insist on the best and examine all material. The boots cost the government \$5 a pair.

Needed It.

Old Chief Slings Hound was a patriarchal Indian on one of the far western reservations. Tourists frequently visited the old man. He had the dignity of a king and a tactful disposition that belied his name.

One day a party of eastern travelers hunted out the old man. Among them was a young woman who was fogged out in the latest style. Her neck was bare, as were her arms. Her garments—what there were of them—were skimpy cut.

She was fascinated by the chief. Fixing her large, eagle-like eyes upon him, she stared and stared exactly as though he were a griffin or a unicorn. The chief began to show symptoms of being excessively bored. He eyed the young woman from head to foot in a chilling manner, but it did not do a particle of good.

Finally the young woman spoke. "What a perfectly lovely blanket!" she exclaimed. "I wish I had it!" She referred to the blanket which enveloped the chief.

Without a word he removed it and tossed it at her feet. He gave her—and her costume—a parting glance. "You take it," he pointed. "You need it most!"

And he stalked away.—Pittsburgh Press.

FIGHT TO GO ON

Death of Editor Nelson Not to Stop War on Corrupt Elections.

By Associated Press.

KANSAS CITY, Mo., April 13.—General arrangements for William H. Nelson, editor of the Star, who died this morning were being completed by the family today. Mr. Nelson had been unconscious since Thursday last. Death was due to uraemic poisoning. Mr. Nelson's last conference with his associates took place in his bedroom the day before he became unconscious. It pertained to the necessity of keeping up the fight for honest elections.

"That is fundamental for democratic government," he said. "I may not be here to see the fight won, but the Star will fight on with all its resources until the present rotten system is broken down."

TOMMY JONES.

Fay Kaiser, who is to meet Tommy Jones of New Castle in the windup of the boxing show before the Connellsville Athletic Club Friday night, arrived in town yesterday and is working out daily at the West Side basketball hall. He is in fine shape. Bill Carter, who is to meet Battling Ward in the semi-final, is helping Kaiser train. Both men expect to give their opponents a hard time.

From the interest manifested in the boxing shows here, the sport has come to stay. At first there were some who opposed it, but since it has been shown that only boys who are in the best of physical condition and evenly matched are allowed to go on, this night opposition has died out. The shows are well managed, and the crowds orderly.

One thing that the management would like to see done at the next show is to have the crowd refrain from smoking during the bouts. This is very bad for the boxers who had the smoke affect their breathing.

Some big boys are to appear here at future shows, among them Harry Krop of Pittsburgh, Patry Franklin, another of Jimmy Dime's men. Incidentally, Tommy Jones is a member of Dime's training camp at New Castle and Jimmy will be here to meet his second.

The agreement made for Kaiser to make 118 pounds and he is now down to 150. Jones is training at New Castle. He helped prepare George Chip for his battle with Al McCoy at last week. Jones' record follows:
